AMENDMENTS TO THE ABSTRACT:

Please amend the Abstract as follows:

In a combination contract, ~~for each leg or sub-contract,~~ up to two different prices can be selected <u>for each leg or sub-contract.</u> ~~and allocating the~~ <u>The</u> number of products ~~that the multiplier states~~ <u>for each leg or sub-contract are allocated</u> between the two prices. Allowing each sub-contract to be traded at~~, at least, two~~ different price ticks within the spread ensures ~~a solution with~~ a correct net price for ~~the~~ <u>each</u> combination contract~~,~~ which can be repeated any number of times ~~(combination quantity)~~.
